

Isaiah 42:3

Creative Terrarium workshop

Our Creative Terrarium workshop is a 45 minutes program where we guide our participants to create a living piece of art within a container that has been repurposed. The result is a unique creation that is easy and inexpensive to maintain.

Why engage in the Creative terrarium?

- (1) It allows participants to have a piece of nature in the comfort of their immediate surrounding
- (2) It helps participants to destress as they go through the **therapeutic process** of using nature to co-create their own signature plant
- (3) It gives participants a sense of **paying it forward as 25% of the net profit** it goes into Recovery program for injured migrant workers at **Salvation Army's Sojourn Care Center.**

Details:

Cost: \$18/pax (10 participants : 1 instructor ratio)

Email in to aquaticeden1@gmail.com

Session is in person and all materials are provided. Materials include the creation of substrate using peat moss, sphagnum moss, sand and suitable plant. Containers used are repurposed containers.
